

INFORMATION NOTICE
MAR-LANG PROJECT

Name of the project: Linguistic diversity in European Maritime Higher Education Institutions
- MAR-Lang

Object: Strategic partnership to develop the learning of maritime French in maritime higher education

Fundings: ERASMUS + Key action 2, Cooperation partnerships in higher education (KA220-HED)

Projet No.: 2022-1-FR01-KA220-HED-000089655

Aims:

- ⇒ Establishing a strong cooperative partnership by organising transnational meetings and training sessions for teachers, as well as cross-sectoral work by implementing linguistic diversity in European maritime higher education institutions;
- ⇒ Building and sharing common curricula for the teaching of maritime French and maritime English by designing curricula and course content;
- ⇒ Increasing the quality of practice and learning of French-English maritime terminology by designing and developing a learning platform to generate digital transformation;
- ⇒ Opening up to new actors by extending the training offered to third parties in French-speaking maritime universities and port management training programmes.

Duration: 2 years (01/12/2022-30/11/2024)

Consortium:

ENSM (leader) – www.supmaritime.fr

Romanian Naval Academy (partner) – www.anmb.ro

Lietuvos aukštoji jureivystes mokykla (partner) – www.lajm.lt

ENSM Team:

Project leader: Christelle Nicolas (Saint-Malo, lecturer in maritime English)

Edward Melaert (Saint-Malo, lecturer in English)

4 Work Packages:

- ⇒ WP1: Project management
- ⇒ WP2: French-English Maritime Terminology collection
- ⇒ WP3: Virtual Campus Platform
- ⇒ WP4: Learning and teaching activities

Deliverables:

- Bilingual glossary of maritime terms in French and English
- Curriculum of French-English Maritime Terminology on Ship and Cargo Handling Course
- Curriculum of French-English Maritime Terminology on Naval Engineering Course
- Curriculum of French-English Maritime Terminology on Port and maritime logistic sector Course
- French-English Maritime Terminology on Ship and Cargo Handling Course Module
- French-English Maritime Terminology on Naval Engineering Course Module
- French-English Maritime Terminology on Port and maritime logistic sector Course Module
- Designing and developing a virtual learning platform
- Designing:
 - 3 short-term joint training events for teachers
 - 3 short-term joint training events for students
 - 3 public events

Planned mobility: Yes, in the partners' countries for teachers and learners.

Budget: €250,000 including €101,022 for ENSM
